

CHAWTON GLOBAL EQUITY INCOME FUND

31 December 2023

CHAWTON
GLOBAL INVESTORS

Investment Objective

The Fund aims to provide a growing income stream and to grow capital over the long term (5 years or more). Each part of this objective will have equal weighting.

Investment Manager

The Fund Investment Manager, Michael Crawford, successfully managed a global equity fund at a large U.S. multi-family office, doubling its value over 7 years to over \$6 billion. He has 26 years' experience and was previously a member of the very successful Deutsche Asset Management team.

Investment Philosophy

The fund will be at least 80% invested in global equities. The Investment Manager will invest in a select (typically 20-50 holdings) portfolio of companies that exhibit high and sustainable returns on capital allowing the companies to both reinvest in the business for growth and provide a meaningful and growing dividend stream to be paid over time. In order to maximise the opportunity of identifying such companies, the Fund will invest in listed equities globally. The Manager believes that to sustain high returns over the long term, companies must adhere to responsible and sustainable investment principles.

Cumulative Performance

Cumulative performance	3 Months	6 Months	1 Year	3 Year	Since Launch*
WS Chawton Global Equity Income Fund B Acc GBP	6.9%	7.8%	10.8%	20.0%	49.7%
MSCI World TR GBP	6.7%	7.3%	16.8%	32.36%	61.4%
IA Global Equity Income	5.4%	5.7%	9.2%	28.1%	41.6%
Quartile	1	1	2	4	2

Past performance is not a reliable indicator of future results. The value of your investments and income derived can go down and you may not get back the money you invested.

Commentary

The fund rose by 5.4% in December improving the cumulative three month gain to 6.9% and year to date to 10.8%. Since launch the fund has risen 49.7% over a period which equates to just over four and a half years.

We were pleased both that 2023 delivered a decent return for our investors after a lacklustre first 9 months and that fund performance compared well with other global equity income funds.

Performance in the last month and final quarter of 2023 was driven by consumer discretionary and industrial sector companies held. These included Home Depot, Fastenal and Ferguson. Over the whole of 2023, our best contributors were Novo Nordisk, Costco, RELX and Ferguson. Against this, Diageo was our greatest detractor followed by Nestle and Johnson & Johnson.

Whilst Diageo both lost its CEO due to ill health and suffered from excess inventory, the fundamental performances of the other two were solid.

We completed one purchase in the month which was of the UK speciality general insurer; Beazley plc. The company manages three syndicates at Lloyds of London and also has platforms in the US, Europe and Asia. Insurance premium rates have risen substantially in recent years due to both increased losses attributed to climate change and inflation in claim costs.

Beazley, having pulled back from the worst areas, is now well positioned to allocate substantial capital into the hard market and at the same time poised to benefit from much better investment income from its float. We estimate a double-digit free cash flow yield for 2024 of which half could be paid out in dividends.

Risks: As a concentrated equity portfolio of typically less than 50 stocks the fund may involve higher volatility and therefore higher risk for those with shorter term investment time horizons (under 5 years). The value of an investment and the income from it can fall as well as rise as a result of market and currency movements and you may not get back the amount originally invested. You should therefore regard your investment as long term. Details of the risk factors are included in the fund's prospectus available at <https://www.waystone.com/waystone-fund-services-uk-limited/ws-chawton-investment-funds/>

Minimum Investments
